**STOP. READ ENTIRE LABEL BEFORE USE.**

**FOR OUTDOOR USE ONLY.**

**WHERE TO BURN: OUTDOORS,** not in enclosed areas to avoid concentration of soot, smoke or scent. **DO NOT** burn indoors. Burn on a stable, level, heat-resistant surface.

For best results, use at least three candles spaced around the perimeter of the outdoor area where people will gather.

**BEFORE LIGHTING:** Keep wick trimmed to ¼ inch or less at all times to reduce sooting. Remove any foreign material or liquid from container.

**AVOID FLARE-UPS:** • Never put anything that can burn in the candle. • Keep candle away from external heat sources. • Do not use water to extinguish candle – liquids can expand the flames or splatter wax. • Do not burn for more than four hours at a time. • Discontinue use when ¼ inch of wax remains. • Cover when not in use to protect candle from water and debris. Never pick up or move a burning candle.

**Before moving,** extinguish with lid and let wax harden. Never pick up or move a burning candle.
